

buste BIO PACK Ortive

Bio Pack
Simbiosys®

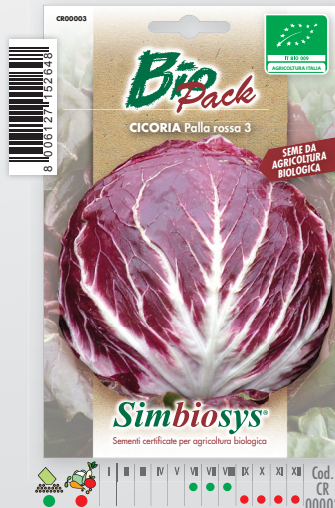

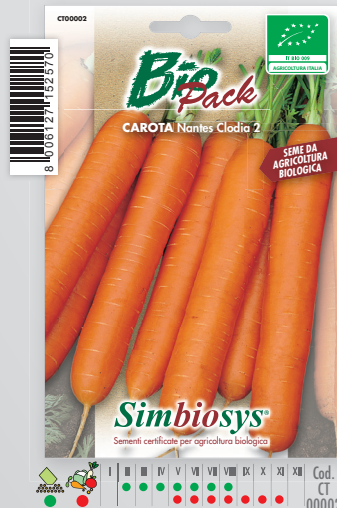

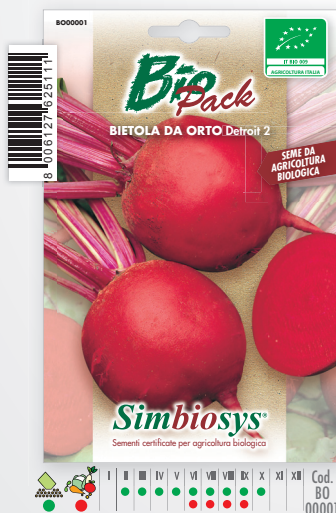

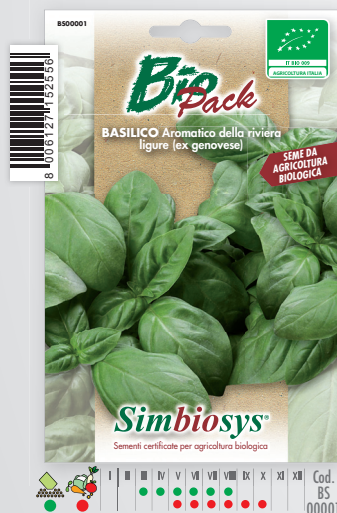

Sementi certificate per agricoltura biologica

Sementi orticole e leguminose da agricoltura biologica

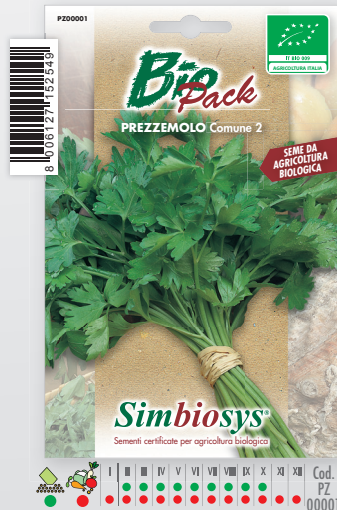

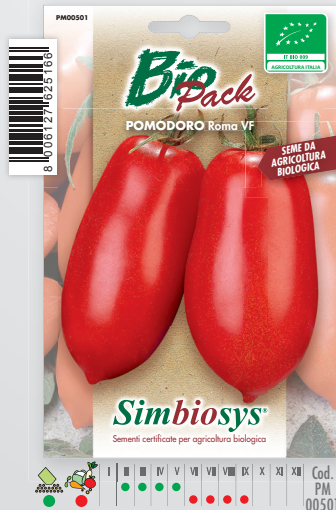

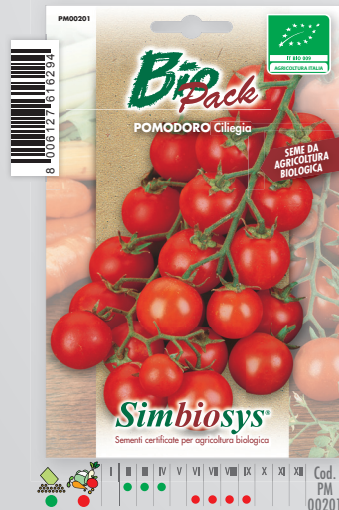

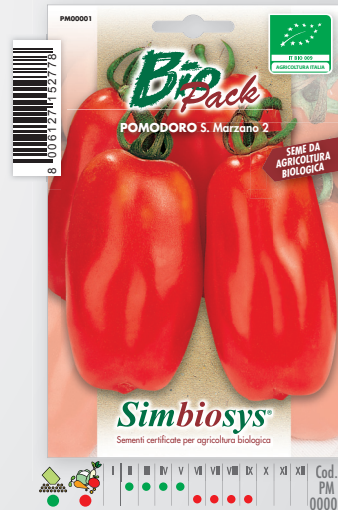

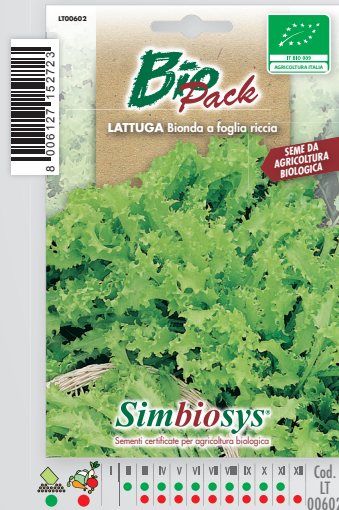

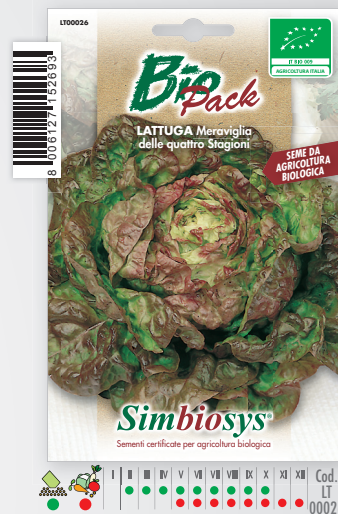

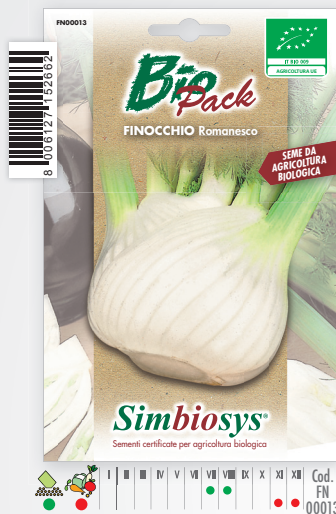

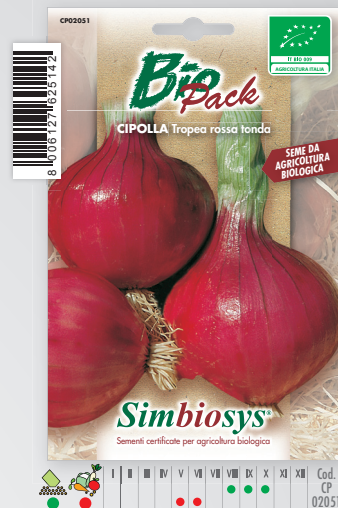

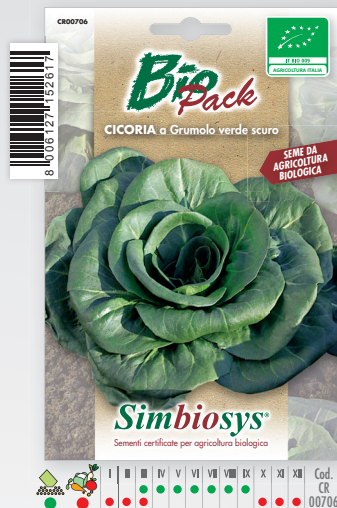

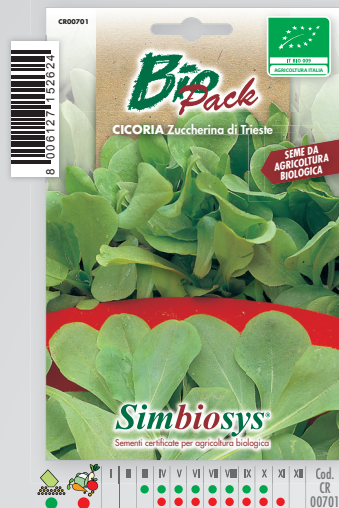

Buste termosaldate 13 x 20 cm

In campo orticolo il termine "biologico" indica una soluzione alternativa ai metodi di coltivazione tradizionale, attuata con tecniche e prodotti naturali in sostituzione di quelli chimici. Il seme della linea Bio Pack - Simbiosys è controllato e certificato da CCPB, un organismo di controllo e certificazione la cui attività ed esperienza derivano dal Consorzio per il Controllo dei Prodotti Biologici fondato nel 1988.

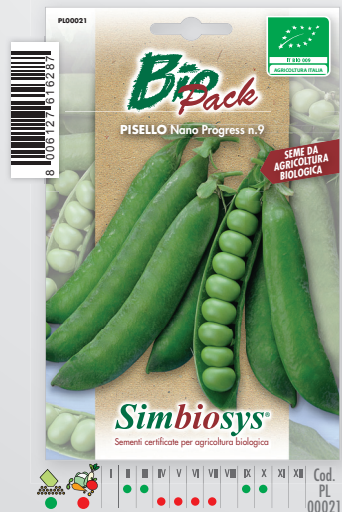

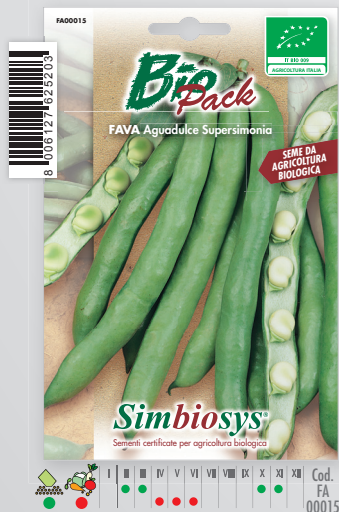

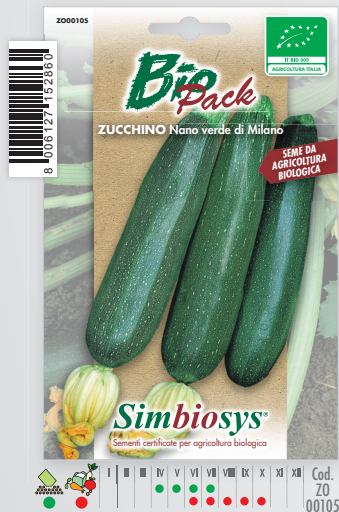

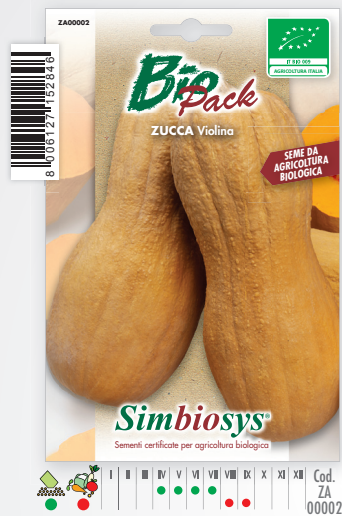

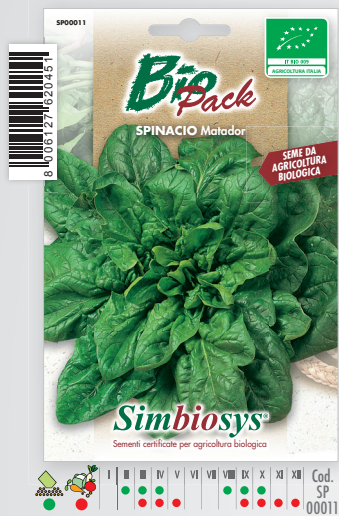

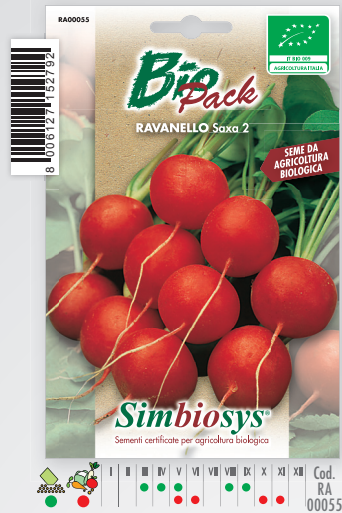

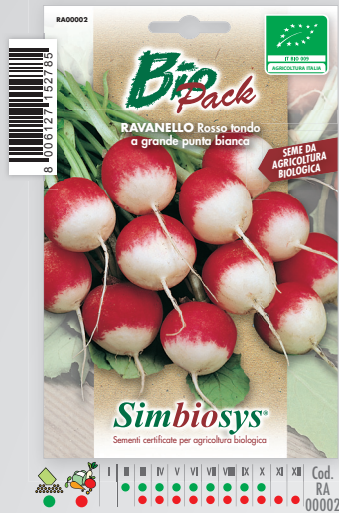

La certificazione CCPB garantisce la qualità del nostro seme biologico.
Tutte le referenze sono vendute in portabuste da 15 pezzi.
